LANDROID[®]

Discover the
new LANDROID[®]

YOUR INNOVATIVE PRODUCTS WITH POSITIVE TECHNOLOGY

Whether for home or garden. For hobby or work. For beginners or professionals: We develop every single WORX product with a very special focus on sustainability, innovation and customer benefit. We are not satisfied until our products are environmentally responsible, offer a groundbreaking alternative to existing tools and make your work a whole lot easier.

We have set many milestones for gardening and power tools along the way - and with the WORX LANDROID[®], we have now established a new standard in robotic mowers.

SHARE BATTERIES SAVE MONEY

Tired of having to pay for unnecessary batteries?
Fed up of filling your shed with chargers? With WORX
PowerShare®, you get everything you need, nothing you don't.

POWER SHARER®

1 Choose your battery

Exactly the right battery for the job:
Choose standard capacity for regular
use – or high capacity if runtime is
critical for your needs.

2 Choose your charger

We made it simple. Just two options:
standard or fast chargers.

3 Choose your tool

Tools optionally available without extras.
Look forward to a large variety of power
tools without paying for extra batteries or
chargers.

POWER SHARE®

SAME BATTERY, EXPANDABLE POWER

Stop buying batteries and chargers that fit one voltage only. Enjoy unlimited freedom of choice with WORX PowerShare®, the cordless system that adapts to your needs.

One battery for 20 V power tools

For your everyday applications, enjoy the convenience of the compact and lightweight WORX 20 V power tools.

$$\text{20 V} = \text{20 V}$$

Two batteries for 40 V tools

When the going gets tough, the power of WORX 40 V tools is what you need.

$$\begin{matrix} \text{20 V} \\ \text{20 V} \end{matrix} = \text{40 V}$$

Four batteries for 80 V tools

Gasoline-like power for the toughest tasks.

$$\begin{matrix} \text{20 V} \\ \text{20 V} \\ \text{20 V} \\ \text{20 V} \end{matrix} = \text{80 V}$$

YOU HAVE THE JOB, WE HAVE THE RIGHT BATTERY

With PowerShare®, WORX does not simply offer you a universal battery system for home improvement, hobby and garden. The 20 V batteries are available in different capacities so you have exactly the right one for every activity.

Do you want agile handling and maneuverability without unnecessary weight? Then you should go for a battery with a low capacity rating. Or do you have a strenuous or demanding job ahead of you that needs a long battery runtime? Then you should choose a battery with a high capacity.

MORE ENDURANCE

For heavy-duty tasks, e.g.:
mowing large areas,
sawing thick logs,
drilling large holes in
hard materials, blowing
wet leaves.

6.0Ah

5.0Ah

4.0Ah

For lightweight tasks
and detail work, e.g.:
turning small screws,
driving small screws,
sawing with a jigsaw,
sanding details,
cutting small hedges.

2.5Ah

MORE AGILITY

2.0Ah

POWER SHARE®

TUNED UP FOR TOP PERFORMANCE

Longer runtime, longer life span, faster charging and higher performance – PowerShare® Pro is a new 20 V battery for professional users that delivers outstanding performance due to the intelligent battery management system and advanced cell protection.

New battery management system

The new BMS prevents the cells from deep discharging, over-charging and over-heating and charges the battery more efficiently.

Communication technology

All tools are optimally supplied with energy for maximum performance and efficiency.

Cell guard

The battery cells are covered with a heat-absorbing TES plastic foil to better dissipate the heat generated.

Heat shield

The battery cells are enclosed in an insulating housing. For maximum protection.

NEW

POWER SHARE™ PRO

YOUR LAWN DESERVES A LANDROID®

Get ready for the best lawn you ever had: The WORX LANDROID® automatically knows what's best for your lawn every day. It adapts to the size and shape of your lawn and the growth rate of your grass. It learns continuously from our fleet of thousands of connected robot mowers and regularly updates itself. It's agile, safe, accurate and packed with customizable features.

Intelligent mowing

LANDROID® learns and builds the perfect schedule and continuously fine-tunes the mowing cycles thanks to cloud computing.

For a beautiful lawn

LANDROIDS® daily mowing boosts the density of grass and prevents the propagation of weeds, giving you the healthiest and best looking lawn.

Always agile & efficient

With AIA, your LANDROID® makes intelligent turns each time it reaches the border of your lawn – even in narrow and intricate passages.

Adjusts to your needs

Get everything you need and nothing you don't. Enhance your LANDROID® with different options that suit your own garden and your individual needs.

LANDROID®

LANDROID®
Mowing robots

S: WR130E, M: WR141E, WR142E,
M Plus: WR165E, WR167E,
L: WR148E, WR147E.1, WR155E

reddot winner 2020

FEATURES

- AIA cutting technology – LANDROID® makes intelligent turns each time it reaches the edge of your lawn.
- Cut to edge – LANDROID® M and L have offset blades in order to mow as close as possible to the border of your lawn.
- PowerShare® 20 V battery – run more than 100 tools with the same battery.
- Multi-zone programming – several lawns can be combined and processed by a single LANDROID®.
- Virtually invisible charging station – LANDROIDS® base has a grid that allows grass to grow through it.
- Rain sensor - to avoid marks on your lawn, the LANDROID® stays in the charging station when it starts to rain.
- Forward and reverse rotation of the mowing deck – doubles the lifetime of the mowing blades.

NEW FEATURES (WR165E, WR167E, WR148E, WR147E.1)

- NEW: WiFi and Bluetooth – direct connection between app and mower, for more convenience and regular software updates.
- NEW: GroundTracer – blade lifts automatically to level out uneven terrain.
- NEW: Jet water protection – easy cleaning of the mower with the garden hose.
- NEW: Rotary knob and LCD display – for easy operation of the LANDROID® directly on the mower.

NOESIS
Cognitive auto-schedule

LANDROID® is able to use the individual data of your lawn and environment to determine the best mowing times and frequency.

A perfect lawn at your fingertips

Your LANDROID® learns about your garden and preferences through the app. Make basic settings and select if you want to enter a schedule manually – or let LANDROID® recommend one for you. Easily get status updates and important notifications about your mower – and keep the software up to date automatically.

Download the free app now and experience LANDROID® before even buying it.

Share your battery with other PowerShare® tools

One for all: just borrow the battery from your LANDROID® and snap it into the tool you need.

FINDING THE RIGHT LANDROID® IS THIS EASY

All you need to know is the size of your lawn.
If you aren't sure, you can easily measure it with the LANDROID® app.
You can find the free app in your app or play store.

This convenient configurator
you will also find online:

www.worx.com/landroid/en/configurator

CREATE YOUR OWN LANDROID®

It's easy to customize your LANDROID® with a range of accessory modules.
Simply insert the module into your LANDROID® – and enjoy even more performance.

What is the size of your lawn?

CUSTOMIZE YOUR LANDROID® WITH THE FOLLOWING OPTIONS

SPECIAL FEATURES OF THE NEW LANDROID® MODELS

Do you have lots of bumps on your lawn?

NEW*: GROUND TRACER levels out slight unevenness in your lawn by lifting the mower deck - for a lawn without mowing marks and to protect the blades.

Do you want even more convenience?

NEW: BLUETOOTH connects the LANDROID® directly with your smartphone. This allows you to conveniently make settings on your LANDROID® even without a WiFi connection.

Do you want to clean your LANDROID® fast & thoroughly?

NEW: SUPERIOR SPLASH PROTECTION ensures that no water gets into your LANDROID®, even if you hose it down with your garden hose.

Do you want to make quick additional settings?

NEW: KNOB AND LCD DISPLAY allow easy operation of the LANDROID® directly on the device. All settings can be read and adjusted on the LCD display.

*This feature is also included in the S300 WR 130E

Are there obstacles on your lawn such as garden furniture, flower pots, trees etc.?

ANTI-COLLISION SYSTEM uses ultrasonic sensors to detect obstacles. Thanks to object perception, autopilot technology steers the LANDROID® around them.

Do you want to make your LANDROID® secure, trackable & connected?

FIND MY LANDROID® LTE module provides a constant connection to the cloud. GPS positioning locates your mower and you can lock it remotely.

Do you need a permanent or temporary no-go-zone?

OFF LIMITS digital fencing is an easy way to exclude areas from LANDROIDS® mowing zone without the need to alter your main boundary wire.

Do you have problems with the reach of your Wifi?

RADIO LINK is a WiFi extender that helps your router to reach further into your garden, keeping your LANDROID® mower always connected to the cloud.

Do you need an efficient theft protection?

HIGH-PITCHED ALARM is a very loud alarm that is triggered as soon as the mower is lifted. It only stops when you enter your PIN, so it is an effective theft deterrent.

SO EASY. SO QUICK. INSTALLING YOUR LANDROID®

LANDROID® is easy to install all by yourself.

Everything you need for installation is included in the box except a couple of basic tools like a mallet and wire cutters. Look forward to all the time you'll save each week by not having to mow your lawn.

Quick start guide

1. Set up the charging base

The charging base should be set up on flat ground with space on each side for docking and close to a power outlet.

2. Lay the boundary wire

Handy measuring guides are included to assist with boundary wire placement. Pegs are also provided to secure boundary wire flush with the ground.

3. Deal with any obstacles

When laying boundary wire, exclude or create islands around areas you do not want LANDROID® to enter, e.g. flower beds, patios and similar obstacles.

4. Return boundary wire to base

Return the boundary wire back to the charging base. Now your mowing perimeter is defined.

5. Follow the app setup

Download the WORX LANDROID® mobile app and scan the QR code on your LANDROID® to connect the LANDROID® to the mobile app.*

6. Choose your schedule

Based on your lawn size, the app will suggest an auto schedule to best fit the size and needs of your lawn.

* Using the operating display, you can also start up your LANDROID® without an app.

ENJOY TOP COMFORT RIGHT FROM THE START: YOUR LANDROID® INSTALLATION SERVICE

Lean back and let our professionals take care of installation – individually and precisely adapted to your garden.

You can book this service at <https://worx-europe.com/service/>.

Scan the QR code
and learn more
about our
LANDROID® services.

WE TAKE CARE OF ALL THIS FOR YOU:

- Preliminary inspection of your garden
- Travel by the LANDROID® professional to your property anywhere in Germany
- Complete installation of the LANDROID® with the included standard accessories*
- Professional and fast underground laying of the perimeter wire by means of a laying machine
- Individual programming and integration of your LANDROID® & personal introduction to all functions

YOUR EASIEST WAY TO TURN "TO-DO" INTO "DONE".

Meet your new favorite garden tools – and say goodbye to noise, stench and inefficient garden work. All garden tools from WORX impress with easy handling, high quality, and durability. Let WORX help transform your garden and discover all the benefits of battery driven garden tools.

No exhaust

Put an end to stench: Thanks to the rechargeable battery, you work completely without exhaust fumes and protect your health and the environment.

Less vibration

Old fashioned gasoline engines generate heavy vibrations that strain the joints in the long run. Our modern battery driven garden tools run much more quietly, provide more precision and cause less fatigue.

Higher efficiency

Gasoline engines primarily generate heat, which wastes energy. Our modern brushless engines convert up to 95% of the energy into motion.

Just one battery

PowerShare® is the battery platform that lets you do everything with the same battery. Whether you use the 20 V, 40 V or now also 80 V version.

WORX NITRO

PROVEN POWER

Worx NITRO's line of high-performance tools give you the proven power to go above and beyond, outperforming standard battery-operated tools. With efficient brushless motors, impressive specs, and advanced engineering, Worx NITRO is made for the skilled professional or advanced DIY-er who demand more from their tools. Worx NITRO comes in 20V, 40 V and an extremely powerful 80 V for the most demanding tasks.

Thanks to our flexible PowerShare battery system, you can easily use the same batteries - whether 20 V, 40 V or 80 V - for our garden and power tools.

**BRUSHLESS™
MOTOR**

AN ENGINE THAT EXCEEDS EXPECTATION

Brushless motors are more efficient, run 50% longer, are 25% more powerful, and have 10X longer life. Plus, they are smaller and lighter than traditional motors, keeping Worx NITRO tools compact and maneuverable.

POWER WITHOUT COMPROMISE

The new PowerShare Pro batteries are made for tough everyday work and tasks that require maximum power and minimum compromise.

This is ensured by many small processing details that together enable exceptional performance: With an intelligent battery management system and a special heat protection of the cells, the batteries can be recharged much faster and more gently. They last longer and provide the required energy much more efficiently.

This makes them the ideal companion for the new Worx NITRO range.

**POWER™
SHARE PRO**

HEATSHIELD TECHNOLOGY

Innovative Heat Storage Material delivers longer runtime, extended battery life, consistent power output and 360° cell protection.

BMS TECHNOLOGY

Safeguards against overuse, overcharge, and overheating.

INTELLIGENT POWER CONTROL

Maximizing tool performance and runtime.

Amazingly quiet

Combine a neat lawn with happy neighbors: All WORX lawn mowers are extra quiet and ensure a perfect lawn with innovative features and easy handling.

WG743E 40 V Cordless Lawn Mower

SPECIFICATIONS

Voltage	40 V MAX
Amp hour	4.0 Ah
Recommended garden area	400-550m ²
Cutting width	40 cm

Voltage	40 V MAX
Amp hour	2.5 Ah
Mowing up to	280 m²
Cutting width	34 cm
Cutting height	20 – 70 mm
Grass bag capacity	30 l
Charging time	2.5 hr
Machine weight	12.8 kg

ACCESSORIES INCLUDED

Battery	2
Charger	1
Spool	1

WG050
Wheelbarrow

AEROCART™

SPECIFICATIONS

Wheelbarrow load capacity	136 kg
Wheelbarrow volume capacity	100 l
Dolly load capacity	136 kg
Cart weight	19 kg

FEATURES

- Highly versatile lifting and moving tool instantly converts from wheelbarrow to dolly and more
- Patented design adjusts center of gravity for a balanced and easy-to-manage load
- No-flat tires never need inflating
- Also works as an extended dolly, flower pot mover, rock mover, trailer mover, bag holder and cylinder holder

ACCESSORIES INCLUDED

Cylinder holder	1
Bag holder	1
Plant mover strap	1
Mesh rock mover	1

WA0228
Wagon kit

WA0230
Snowplow attachment

WA0232
Firewood carrier

WA0234
Tub organizer

WA0235
Universal tool holders

THE CLEANER YOU CAN TAKE WITH YOU ANYWHERE

Unlike conventional pressure washers that require a bulky body unit, a mains connection and a garden hose attached to a tap, the HydroShot™ runs on batteries and draws water from any source.

Bodyless

No bulky, heavy machines to move around: the pump is in the lance.

Cordless

Forget tangled power cords, the HydroShot™ runs on batteries anywhere.

Reel-less

Say no to those long hoses that are never long enough.

Tapless

Draw water from any source: bucket, tank, bottle, pond...

HYDROSHOT™

20V → **20V**

IT DRAWS WATER
FROM ANY SOURCE

WG620E.9*
20 V Cordless Portable Pressure Washer

HYDROSHOT™

SPECIFICATIONS

Voltage	20 V MAX
Amp hour	2.0 Ah
Max. pressure	24 bar
Flow rate	120 l / h
Charging time	1 hr
Machine weight	13 kg

FEATURES

- Power cleaning and watering
- 5-in-1 pressure nozzle
- Draw water from any resource
- PowerShare®, shareable battery

ACCESSORIES INCLUDED

Long lance	1
6 m water hose	1
Multi-spray nozzle	1

Power to clean, but not to damage

5-IN-1 Different spray patterns offer versatility of use: Choose from four spray angles (0°, 15°, 25°, 40°) or shower to tackle your cleaning project.

Truly portable power cleaning

IT GOES EVERYWHERE Take it to the lake and just drop the hose in the water. The bottle connector included lets you take your water with you. Ultimate portability!

Optional Genuine Accessories

HYDROSHOT™

		
WA1820 Auto / boat power scrubber	WA1821 Hard surface power scrubber	WA4042 Rotary cleaning brush

WA1900 Universal cleaner	WA1901 Car shampoo	WA1902 Stone facade cleaner

* Bare tool without battery and charger.

LET'S GET THE JOB DONE!

Whatever you're up to, with the right tools at your side, you'll simply get more out of it and reach your goal faster.

Our power tools help you with powerful batteries and brushless motors as well as numerous smart functions that are only available from WORX.

PowerShare®

Drill, grind, saw, just do everything with the same battery. Recharge it with one charger and save money and space in your workshop.

Patented features

Our tools are packed with unique functions that make work much easier, more convenient and precise.

Professional quality

WORX power tools incorporate high-quality metal and hard plastic components that pass the most stringent quality controls.

Ergonomic design

Compact design, soft component handles and optimized power transmission. Work for hours without fatigue with tools from WORX.

All you need is a Slammerdrill

The WORX Slammerdrill drills into wood, metal, plastic, masonry and even concrete!

SLAMMERDRILL

FAST INTO REINFORCED CONCRETE, AS POWERFUL AS A ROTARY HAMMER, AS COMPACT AS A DRILL-DRIVER.

The Slammerdrill has everything you need and more for any job around the house. This cordless 20 V impact drill features new Active Hammer Technology that generates enough power to drill through the hardest surfaces, even reinforced concrete*. And with 18+1+1 torque settings that output a maximum torque of 60 Nm, you'll find the perfect setting for any job.

The hammer has no-load speed of 0–600/0–2,000 rpm and an impact rate of 0–1,800/0–6,000 bpm, depending on whether the drill is in low or high gear. And the highly efficient brushless motor converts energy into power 50 % more effectively than a brushed motor.

For everything you'll ever need in an everyday drill, grab the Slammer!

BRUSHLESS MOTOR™ **POWER SHAR®**

Active Hammer Technology

TRANSMITS MASSIVE FORCE TO THE DRILL

The energy is stored in the cam and spring and released in a flash. This amplifies the impact force and increases efficiency.

Fastening, drilling & hammer drilling

ONE SOLUTION FOR ALL APPLICATIONS

The variable 2-speed gear design with 18 torque settings covers a wide range of drilling, fastening and hammer drilling applications.

*Reinforced concrete up to hardness C30 /37, which is used for the construction of almost all residential buildings.

20 V Cordless Impact Drill

SPECIFICATIONS

	WX354.1	WX371.10
Voltage	20 V MAX	20 V MAX
Amp hour	2.0 Ah / 4.0 Ah	2.0 Ah
No-load speed	0 – 600 / 0 – 2,000 rpm	0 – 400 / 0 – 1,500 rpm

Charger	1	1
Double ended bit	1	1
Bit clip and hook	1	–
Injection box	1	1

WX317.1 600 W Impact Drill

SPECIFICATIONS

Rated power	600 W
No-load speed	0 – 3,000 rpm
Impact rate	0 – 48,000 bpm
Chuck size	13 mm
Max. drilling capacity (wood / masonry / steel)	25 / 13 / 13 mm
Machine weight	3.3 kg

ACCESSORIES INCLUDED

HSS drill bit	1
Masonry drill bit	2
Auxiliary handle	1

FEATURES

- 13 mm keyless chuck
- Variable speed control
- Adjustable side handle
- Forward and reverse bit rotation
- Lock-on switch

WX337 750W 20mm Rotary Hammer

SPECIFICATIONS

Rated power	750 W
No-load speed	0 - 1,050 rpm
Impact rate	0 - 5,300 bpm
Impact energy	2.0 J
Max drilling capacity Wood / Masonry / Steel	30 / 20 / 13 mm
Machine weight	3.30 kg

ACCESSORIES INCLUDED

Auxiliary handle	1
Depth gauge	1
Injection box	1

FEATURES

- Three functions: hammer drilling, drilling, chiseling
- SDS-plus chuck
- Variable speed control
- Soft grip handle
- Forward and reverse rotation

Ready for the next project.

Drill, screw, done: with our drill/screwdrivers you can get your work done not only quickly, but also extremely comfortably – thanks to the soft grip and light weight.

WX177.9*

Worx NITRO 20 V Cordless Brushless Switchdriver™ 2.0

SWITCHDRIVER™

WORX NITRO

BRUSHLESS™ MOTOR **POWER SHAR®**

SPECIFICATIONS

Voltage	20 V MAX
No-load speed	0 – 450 / 0 – 1,700 rpm
Max. torque	50 Nm
Torque settings	9 + 1
Max. drilling capacity (wood / steel)	40 / 13 mm
Chuck size	6.35 mm hex
Machine weight	1.1 kg

FEATURES

- High-efficiency brushless motor
- Rotating dual chucks
- Compact and lightweight
- Intelligent torque memory
- LED light for dark areas
- Digital torque setting
- PowerShare®, shareable battery

ACCESSORIES INCLUDED

Drill bit set	1

20 V Cordless Oscillating Tool

SoniCrafter®

SPECIFICATIONS

Voltage	20 V MAX
Amp hour	2.0 Ah
No-load speed	5,000 – 18,000 / min
Oscillation angle	3.6°
Charging time	1 hr
Machine weight	1.3 kg

FEATURES

- Universal Interface®
- On-board blade wrench
- Microsonic® high frequency oscillation technology
- Ultra-versatile
- Variable speed control
- Soft grip handle
- PowerShare®, shareable battery

ACCESSORIES INCLUDED

35 pc accessories set	1
Injection box with color sleeve	1

Tool-free blade clamping

HYPERLOCK® with massive clamping force, the system provides hold and tool-free attachment changing.

Universal blade holder

UNIVERSAL INTERFACE®
Universal mount for smooth use of accessories from other manufacturers.

* Bare tool without battery and charger.

For precision working

WORX jigsaws are robust, powerful and precise and impress with their excellent handling.

WX550 / WX550.9* 20 V Cordless Multi-Purpose Saw

SPECIFICATIONS

Voltage	20 V MAX
Amp hour	2.0 Ah
No-load speed	0 – 3,000 spm
Stroke length	20 mm
Max. cutting depth (jigsaw mode)	wood: 50 mm
	steel: 4 mm
	PVC: 50 mm
Max. cutting depth (reciprocating saw mode)	wood: 100 mm
	steel: 76 mm
	PVC: 127 mm
Charging time	1 hr
Machine weight	1.9 kg

FEATURES

- Two saws in one
- Tool-free blade change system
- Pendulum function
- Variable speed control
- PowerShare®, shareable battery

ACCESSORIES INCLUDED

Battery Pack	1
Charger	1
Jigsaw and reciprocating saw blades kit	1
Injection Box	1

Endless cutting possibilities

AXIS easily converts from a reciprocating saw to a jigsaw in seconds and cuts a variety of materials like wood, PVC, metal, ceramic tiles, plastic, and even tree limbs.

Change blades in seconds

TOOL-FREE BLADE EXCHANGE Simply push the button and hold down the lever to take out the blade easily. Designed for any brand of jigsaw or reciprocating saw blade.

* Bare tool without battery and charger.

WX642.1
Corded Finishing Sander

SPECIFICATIONS

Rated power	270 W
No-load speed	6,000 – 12,000 opm
Base size	90 x 187 mm
Sanding sheet	93 x 230 mm
Orbital diameter	1.6 mm
Machine weight	2.0 kg

FEATURES

- Cyclone technology
- Easy dust discharge at the press of a button
- Large orbital diameter and variable speed
- Sturdy 90 x 187 mm aluminum base
- Double paper attachment system
- Ergonomic design
- Soft grip handle

ACCESSORIES INCLUDED

Clamp sandpaper 60#, 80#, 120#	9	Cyclonic box	1
Dust extraction adapter 32 mm	1	Paper hole punch	1
Dust extraction adapter 35 mm	1	Injection box	

WX661.1
950 W Belt Sander

SPECIFICATIONS

Rated power	950 W
No-load speed	240 – 350 m / min
Belt size	76 x 533 mm
Sanding area	76 x 130 mm
Machine weight	3.3 kg

FEATURES

- Large sanding area with large belt size
- Variable speed control
- Quick-release belt change system
- Manual alignment knob and belt centering system adjustment
- Dust extraction facility with built-in dust port

ACCESSORIES INCLUDED

Dust collection bag	1	Dust extraction adapter 32 mm	1
80 grit sanding belt	2	Dust extraction adapter 35 mm	1

WX615
750 W Planer

SPECIFICATIONS

Rated power	750 W
No-load speed	17,000 rpm
Max. cutting depth	3 mm
Max. rebate depth	12 mm
Max. cutting width	82 mm
Machine weight	3.0 kg

FEATURES

- Convenient chip extraction
- Precise parallel guide and rebate depth guide
- Dust extraction facility with built-in dust port
- Rubber overmoulded grip
- 17,000 rpm for fast stock removal and a smooth finish
- 0 – 3 mm adjustable planing depth
- V-groove in base

ACCESSORIES INCLUDED

TCT blades	2	Parallel guide	1
Vacuum adapter	1	Spanner	1

WX092.9
20 V Multi-Function Inflator

SPECIFICATIONS

Voltage	20 V MAX
Inflation efficiency (0 to 2.4 bar for 215 / 55R17 tires)	4 min
Working pressure	max. 10 bar 8 bar 2.5 min / 7.5 min
Machine weight	1.0 kg

FEATURES

- 4 tools in 1: inflator, tire pressure monitor, work light and emergency SOS light
- Displays accurate tire pressure
- High pressure inflation up to 10 bar
- Powerful and multifunctional LED light
- PowerShare®, shareable battery

ACCESSORIES INCLUDED

Presta valve adapter	1
Sport ball needle	1
Tapered adapter	1
Flexible hose	1

Exact Pressure

DIGITAL LED GAUGE displays accurate tire pressure with the option of pre-setting your required PSI. The inflator automatically shuts off when the set pressure is reached to avoid over-inflating.

More than just an inflator

LED LIGHT illuminates work areas and includes a red and yellow emergency light. Compact design makes it portable and space saving so you can simply keep it in your trunk.

* Bare tool without battery and charger.

WX020.9*
20 V HVLP Brushless Paint Sprayer

SPECIFICATIONS

Voltage	20 V MAX
Amp hour	4.0 Ah
Maximum pressure	20 kPa
Max. viscosity	300 Din/sec
Max flow	1000 ml/min
Container capacity	1000 ml
Runtime	17 min
Machine weight	0.98 kg

FEATURES

- Powerful brushless motor
- Compact and lightweight design
- High-volume, low-pressure technology
- Multiple nozzle patterns and sizes
- PowerShare®, shareable battery

ACCESSORIES INCLUDED

Nozzle cleaning needle	2	Nozzles	4
Viscosity measuring cup	1	Garden hose adapter	1

* Bare tool without battery and charger.

WX852.1 12 V Cordless Jump Starter

SPECIFICATIONS

Battery capacity	12,000 mAh
Battery type	Li-polymer batteries
Autostart peak current	500 Amps (peak)
Gas engine rating	4 l
Diesel engine rating	3 l
LED flashlight	500 LM
Machine weight	0.6 kg

FEATURES

- 500 Amps rated for gasoline engines up to 4 liters
- About 30 jump starts per charge
- Reverse polarity and spark proof protection
- Multifunction lamp
- Two-way USB mobile device charging
- Magnetic base
- IP54 waterproof

ACCESSORIES INCLUDED

Charging input USB cable	1	Booster clamps	1
Car charging input cable	1	Carry bag	1

WX856.9*
20 V Cordless Orbital Buffer

SPECIFICATIONS

Voltage	20 V MAX
Amp hour	2.0 Ah
No-load speed	3,000 rpm
Base plate size	254 mm
Runtime	40 min
Charging time	1 hr
Machine weight	2.5 kg

FEATURES

- Powerful motor
- 254 mm base plate diameter
- Ergonomic design for improved comfort and control
- Elastic band keeps bonnet securely in place
- PowerShare®, shareable battery

ACCESSORIES INCLUDED

2 high quality bonnets	1
------------------------	---

* Bare tool without battery and charger.

WX095.9*
20 V Cordless / Coded Jobsite Fan

SPECIFICATIONS

Voltage	20 V MAX
Amp hour	2.0 Ah
Dimensions	242 mm
No-load speed	0 – 1,500 / 0 – 2,500 rpm
Air flow	310 / 450 CFM
Tilt adjust angle	0 – 360 °
Runtime (2.0 Ah battery)	Low speed 5.7 h High speed 1.7 h
Machine weight	4.0 kg

FEATURES

- Powerful air blowing motor
- Battery pack can be charged in AC mode
- 360 degree angle tilt
- Switch from AC to DC mode easily
- Multiple hanging options
- PowerShare®, shareable battery

ACCESSORIES INCLUDED

Adapter	1
---------	---

WX094.9*
20 V Cordless Jobsite Blower

SPECIFICATIONS

Voltage	20 V MAX
Air speed	257 km/h
Air volume	1.6 / 2.2 / 2.8 m³ / min
Machine weight	1.3 kg

FEATURES

- Powerful 257 km/h air stream
- Compact and lightweight shell
- Strong blowing force
- Ergonomic handle design
- PowerShare®, shareable battery

ACCESSORIES INCLUDED

Blower tube	1
-------------	---

* Bare tool without battery and charger.

WX051
Multifunction Work Table

SPECIFICATIONS

Table size	787 x 635 mm
Working height	813 mm
Max. clamp width	457 mm
Fold size	635 x 127 x 889 mm
Worktable load capacity	135 kg
Sawhorse load capacity	450 kg
Machine weight	13.5 Kg

FEATURES

- Versatile usage - sawhorse and work bench
- Integrated clamping system
- Compact and lightweight design
- Tool holding tray
- PowerShare®, shareable battery

ACCESSORIES INCLUDED

Quick clamp	2
Clamp dog	4

WX065
Clamping Sawhorse

SPECIFICATIONS

Max. weight capacity per pair	455 kg
Dimension	685 x 130 x 830 mm
Folder size	485 x 130 x 830 mm
Machine weight	7.2 kg

FEATURES

- Stable, easy to transport and flexible
- Clamps are compatible with the Worx Pegasus WX051
- Built-in tool tray and cord hooks
- Compact and lightweight design

ACCESSORIES INCLUDED

F-clamp	2
---------	---

WX066
Portable Work Table

SPECIFICATIONS

Table size	600 x 600 mm
Working height	813 mm
Fold size	937 x 329 x 136 mm
Worktable load capacity	135 kg
Machine weight	6.2 kg

FEATURES

- Sturdy, portable and adaptable
- Easy to set up metal leg stand
- Folds in half for easy transport and compact storage
- Handle designed for effortless transport
- Tool holding tray

ACCESSORIES INCLUDED

Clamp dog	4
